South Africa	Africa (Southern Africa, Sub-Saharan Africa)	\$13,200	94.3%	9.9	7.76	18.92%	57
Sudan	Africa (East Africa, Sub-Saharan Africa)	\$4,300	75.95%	3.1	2.8	0.25%	63
United States of America	Americas (North America)	\$55,800	NA	12.9	24.52	NA	79

**GDP (PPP) per capita source:** *The World Factbook* 2015–16. Washington, DC: Central Intelligence Agency, 2016. Figures represent a country's GDP (gross domestic product) divided by the country's population. Amount given in U.S. dollars.

**Adult Literacy source:** *The World Factbook* 2015–16. Washington, DC: Central Intelligence Agency, 2016. There is no universal definition of literacy, though in most cases, figures here represent the percentage of people age 15 and above who can both read and write.

**Mean Years of Schooling source:** Human Development Reports: United Nations Development Programme. Accessed 2016 (<http://hdr.undp.org/en/composite/HDI>). Figures represent the average years of education completed by people over age 24 in the country. Data shared under the Creative Commons Attribution 3.0 IGO license (<https://creativecommons.org/licenses/by/3.0/igo/>).

**Physicians source:** Physicians density (per 10 000 population): World Health Organization data. Accessed 2016 through UNdata ([http://data.un.org/Data.aspx?d=WHO&f=MEASURE\\_CODE%3aWHS6\\_125](http://data.un.org/Data.aspx?d=WHO&f=MEASURE_CODE%3aWHS6_125)). Figures represent the number of doctors for every 10,000 people in a country.

**Adults with HIV/AIDS source:** *The World Factbook* 2015–16. Washington, DC: Central Intelligence Agency, 2016. Figures represent the percentage of a country's total population (between ages 15 and 49) living with HIV/AIDS.

**Total Life Expectancy source:** The World Bank: Life expectancy at birth, total (years): various sources. Accessed 2016. Figures represent the number of years a newborn infant would live if prevailing patterns of mortality at the time of its birth were to remain the same throughout its life.
